ABOUT THE FISH CENTER

It is the Fish Center's mission to build a cadre of educators, professionals and lay leaders across the US who are committed and ready to meet the challenges of this field. As survivors of the Holocaust pass away and awareness of the subject in public memory fades, there are many challenges ahead. Our faculty is made up of experts in the fields of history, social work, literature, theology, law and education, offering a wide lens on the human experience. Our small class sizes make it easier to make lasting connections as you build hands-on experience in devising research questions and interpreting and evaluating evidence within a disciplinary focus.
